Justin Chow,

Mr Lee Eu San,
Managing Director,
Sime Darby Autoconnexion.

5th September 2012.

Mr Lee,
Desire to Work at Ford

With regards to the above statement, I wish to express my desire to work at the Ford Motor Company, and shall justify my wish with a few reasons.

2. I will start off with my interest in cars. Since I was but a wee child, I was immensely fond of the great vehicle that is the automobile. To hold a position in a car company, and a reputed one at that, is an exciting proposition for me. Working at Ford, I seek to learn more about how the company functions, the inner workings of it, and also about automotive industries in general. Equally important, I wish to take advantage of the opportunity to grow and develop.

3. Subsequently, based on the research I have done, this company is an industry leader. I admire some of the impressive cars the company has produced, for instance, the Mustang, the 1990 Sierra RS Cosworth, and the all-time great Ford Model T. Furthermore, I have also found out about the company's environmental initiatives, which include flexible fuel vehicles and hybrid electric models. And, judging from the founder's backgrounds and the company's current financial statements, this company appears to be sensational to serve.

4. I hope that you will take into consideration my application, and I look forward to your response. Thank you for your time.

Yours truly,

Justin
